barcelonan okupas squatter power is the first book to combine close readings of the representations of spanish squatters known as okupas with the study of everyday life built environment and city planning in barcelona vilaseca broadens the scope of spanish cultural studies by integrating into it notions of embodied cognition and affect that respond to the city before and against the fixed relations of capitalism social transformation as demonstrated by the okupas is possible when city and art interrelate not through capital or the urbanization of consciousness but through bodily thought the okupas reconfigure the way thoughts words images and bodily responses are linked by evoking and communicating the idea of free exchange and openness through art poetry music performance art the plastic arts graffiti urban art and cinema and by acting out and rehearsing these ideas in the practice of squatting the okupas challenge society to differentiate the images and representations instituted by state domination or capitalist exploitation from the subversive potential of imagination the okupas unify theory and practice word and body in pursuit of a positive social vision that might serve humanity and lead the way out of the current problems caused by capitalism

if as a corollary of urbanization many artists seized as early as the nineteenth century and most of the twentieth century the city as object and scene of their reflection on a world under construction it was not the same for rural areas generally speaking until recently the countryside s representations have been shaped by the writings of a ruling class however in recent decades alongside the country novels or terroir novels that follow in line with the rustic current initiated in the nineteenth century more demanding literary productions have emerged these writings often fed by the sense of loss and the end of a certain agricultural lifestyle are also exploring the contemporary reconstructions of rural areas little publicized they redefine a new regionality less militant and certainly less connoted in its nostalgic link to the land this book revisits

rural areas and their representations in contemporary writing in both popular and high culture in order to draw a global landscape of current rural areas and new regionalities
